Honey Nelson for the poster image and Lisa Abbott for graphic artwork
Organisational and program genies – Johanna McBride, Meg Rigby,
Janet Salisbury, Glenda Cloughley

SEASONS OF RENEWAL
Lawsongs in the High Court

A Chorus of Women is delighted to present this Musical Offering to sing up the laws of harmony, life and Earth with some of our wonderful musician friends in the beautiful space of the High Court foyer.

Human laws such as those considered in the High Court reflect the ethical and moral stance of the society that creates them. So High Court decisions tell us much about who we are as humans in this place and at this point in time.

Natural laws transcend time and place. Laws of life reflect our shared humanity and interdependence. Laws of Earth direct the cycles and interconnection of all living and nonliving things. When human laws and natural laws align, peace and harmony are likely to follow. In Aboriginal cultures, the ‘lawsongs’ – like the great mythical teaching stories of Europe and elsewhere – remind us what will happen when these laws are broken.

Our Musical Offering today includes a selection of our original songs that give voice to citizen concerns and longings for human rights, peace, and care of the environment. Our mission reflects a deep commitment to express, through music, our shared longing for a just and harmonious future.

A Chorus of Women, December 2013
